There are many questions I and the consulting parties have about the document, see the email I sent to Karen Theimer-Brown. Also all we have is the emailed copy of the Agreement? Did you send a final original document? Susan

Hi Karen, Yes we are also getting lots of comments from the consulting parties about the draft PMOA. They have questions about timing, salvage, trail use-timing, review of the recordation documentation. We need to answer these questions before we can sign the agreement. Also we have only received an emailed version of the Agreement. Certainly, STB doesn't expect us to sign that? Susan Zacher, BHP
